# BOMB GANG IS TRAILED

## "WILL BE KILLED ABOUT OCT. 15"

### Business Men Warned of Death by Letter— Genoa and Wall-st Blasts May Be Linked

CENTRALIA, Wash. — (By Associated Press.)—Department of justice representatives are investigating the receipt Saturday by a local newspaper of a threatening letter purporting to be from Milwaukee radicals, in which warning is given that American legionnaires and business men of this city who escaped the "Armistice Day murders" would be killed "about October 15."

Six local men are named as contemplated victims.

#### DISASTER PREDICTED

MILWAUKEE, Wis. — (By Associated Press.)—Search was started here Saturday for a man, whom federal officials were told had predicted the New York bomb explosion of Thursday. This man, federal officials were told, in arguing with several others about the principles and practices of the I. W. W., last Monday, said:

"Something will 'burst' in the east this week that will open your eyes. The explosion Thursday noon in Wall-st caused them to notify federal authorities."

#### MAY LINK EXPLOSIONS

WASHINGTON. — (By United Press.)—Government officials Saturday were seeking to learn whether

er there is a connection between the Wall-st bomb outrage and the explosion Friday at the stock exchange at Genoa, Italy.

Reports from American representatives in Italy were expected to reach here, giving details of the bomb explosion there. Justice department officials planned to forward these reports immediately to William J. Flynn, investigating the New York outrage.

The finding in the mail box near the scene of the New York explosion of circulars signed "The Anarchist Fighters of America" connects the present catastrophe up with the attempted bombings of May, 1919, justice department officials pointed out.

Attorney General Palmer at that time connected the bomb outrages with the Russian bolsheviks. He attempted to trace a direct connection between the radicals of Russia and their agents in the United States.

Justice department agents then ran into a blind alley in their search for the anarchist fighters chiefly, it was said here Saturday, because of the suicide of a witness, who threw himself from a window of a building in New York in which he was being held prisoner.

### CONGRESS SCORED FOR NON-ENFORCEMENT OF EXPLOSIVE LAW IN U. S.

WASHINGTON.—Dr. Charles E. Munro, inventor of smokeless powder and an official of the mines bureau Saturday scored congress for failure to appropriate money to carry on regulations for the sale and handling of explosives.

"Explosives may be obtained with comparative ease by any one," said Munro. "This makes bomb outrages possible."

During the war, Dr. Munro explained the bureau of mines was given authority and funds to regulate the sale of explosives; after the armistice this regulation had to be abandoned, he said, because of a lack of funds.

### PRICES ON SLUMP

#### Exceptions Are Fuel, Metals and House Furnishings

WASHINGTON.—(By Associated Press.)—A pronounced drop in the general level of wholesale prices during August was reported today by the department of labor. Measured by changes in the index numbers of the bureau of labor statistics, the decrease was 4 1-2 per cent.

Foodstuffs showed the greatest price recessions, the decrease averaging more than 12 per cent. Farm products declined nearly 6 per cent and clothes and clothing 5 3-4 per cent.

Fuel and lighting materials continued their upward trend with an increase of more than 6 1-4 per cent, while metals and house furnishings goods also showed an increase over July.

### DIDN'T KNOW WHICH CHICKEN TOOK IT, BUT HE GOT HIS DIAMOND

DAVENPORT, Iowa.—It was a tedious process for H. L. Walbourne, a farmer and butcher, to recover a lost diamond valued at \$600, for he was unable to tell which of his 153 chickens had swallowed the gem.

The diamond was missing from his ring after he had unlabeled the chickens from crates and placed them in a coop and he suspected one of the fowls had eaten it. He found the jewel Saturday in the gizzard of the fiftieth fowl he slaughtered.

### CAT WILL MAKE ITS DEBUT ON BALLOT OF BUCKEYE THIS FALL

COLUMBUS.—The cat will make its debut on the ballot in Ohio this fall. The Single Tax party has requested that this symbol be placed on the ballot at the head of its list of candidates, alongside the Democratic rooster. Republican eagle and Socialist torch.

CHICAGO.—(By United Press.)—"Let the men do the house work," is rapidly becoming the slogan of Chicago women, according to information obtained from employment agencies here Saturday by the United Press.

Finding it impossible to obtain girl servants, the women are hiring men to replace the maids. Filipino and Jap boys are especially in demand.

FIRST PHOTO OF BIG NEW YORK BOMB EXPLOSION.

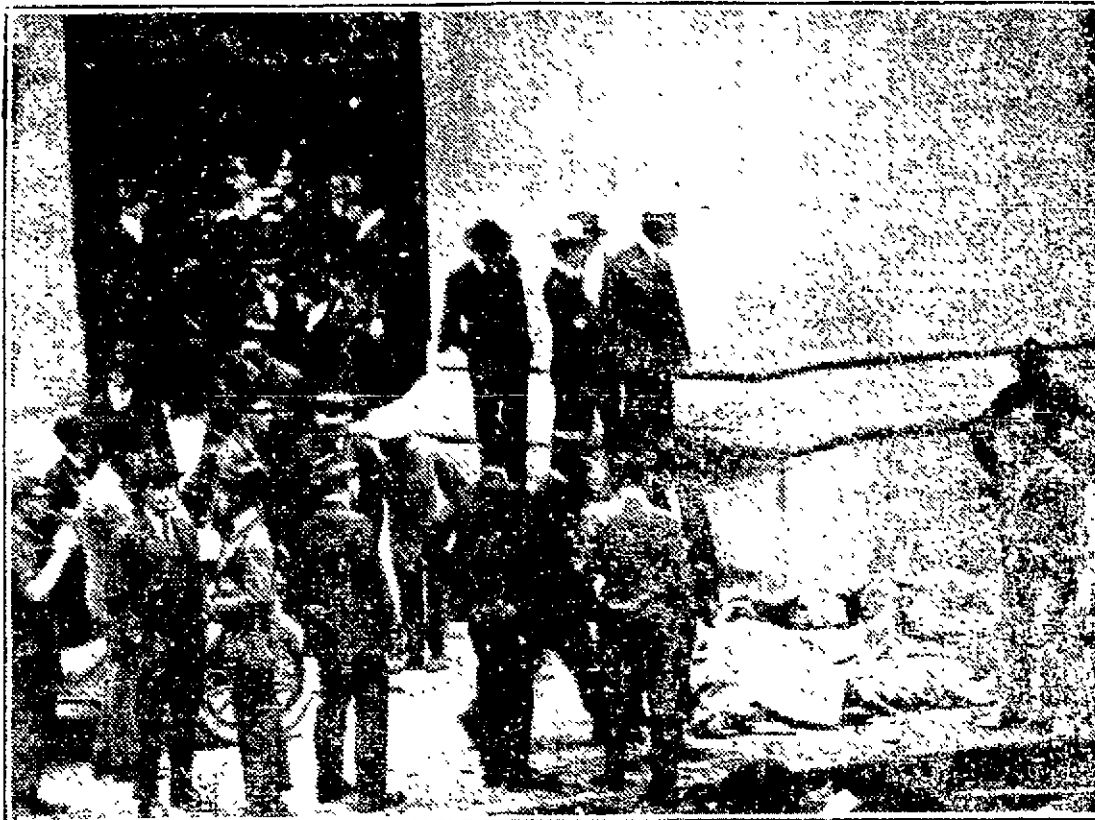

Photo shows Building of J. P. Morgan & Co., after the explosion. Note the dead bodies on the sidewalk.

### ITALIAN PREMIER FACES STORM

#### Employers Protest Against Plan to Placate Strikers

ROME.—(By United Press.)—Premier Giolitti on resuming his duties Saturday faced a storm growing out of his decision to appoint a commission to devise a new industrial system which would give labor a voice in management of industry.

The premier's decision to appoint a commission to deal with such laws, met with outspoken disapproval from employers, but there was a general disposition to accept the scheme rather than disrupt business by permitting striking workers to go on holding and operating plants as at present.

At the same time, while the confederation of labor enthusiastically supported the premier's plan, socialists were dissatisfied. They feared some sort of trap, or at least a heading off of a socialistic scheme of government.

The Italian press generally approved the premier's action as the only means of averting bloodshed and disposing of a painful situation. Newspapers were inclined to avoid discussion of the control bill, making few suggestions as to the form it should take.

### RAIL ULMATUM ISSUED TO CITY

#### Youngstown Council Refuses 10 Cent Fare Boost

YOUNGSTOWN.—(By Associated Press.)—Because council refused to authorize increased fares after the stabilizing fund fell below its minimum limit under the service at cost franchise, the Pennsylvania-Ohio Electric Company Saturday gave the city a week to authorize a ten cent fare, at the end of which period the company said it will operate independently and sue the city for damages.

A statement issued by the company said that on July 1, 69 cities in the United States had ten cent fares.

The city council, when it refused to authorize the increase from nine to ten cents, instructed counsel to bring action in court to break the service at cost franchise.

### LONE MAN BARRED

#### Must Have Woman "Escort" to Hear Cox Today

SAN FRANCISCO, Calif. — (By Associated Press.)—Mere man, unless accompanied by a woman "escort," was refused admittance Saturday to hear the address of Governor James M. Cox, Democratic presidential nominee, before the San Francisco center of the California Civic League, a woman's organization.

The speaker at a luncheon, was the principal feature of Governor Cox's last active campaign day in the San Francisco bay region. Tickets were restricted to women voters, unless a member of the organization requested the privilege of bringing a "man guest."

The nominee will leave Sunday for Los Angeles.

### OHIO BANK IS FIRST TO BE EXAMINED BY COMMITTEE OF WOMEN

COLUMBUS.—The Firestone Bank of Lisbon, Columbiana-co. has the distinction of being the first bank in Ohio to be examined by a committee of women, Ira R. Pontius, state superintendent of banks, said Saturday.

Directors of the bank chose women, departing from an old custom, because of the enfranchisement of the latter.

Pontius is of the opinion this is the first time women have acted as banking committee examiners anywhere in the country.

### G. O. P. CAMPAIGN IN OHIO OPENS

#### Senator Clapper and Chairman Clark Attack Cox

COLUMBUS.—(By Associated Press.)—The Republican campaign in Ohio was officially opened here Friday night with a mass meeting at Memorial Hall at which Senator Arthur Capper, of Kansas, and George H. Clark, Republican state chairman were the principal speakers.

Senator Capper likened expenditures of the present Democratic administration to the "famous flood of Noah's time" and charged big crooks of the excess profits tax. He charged President Wilson responsible for the sugar shortage, and attacked the league of nations.

Chairman Clark introduced documentary evidence purporting to refute Governor Cox's alleged statement at Wheeling that during his years as governor of Ohio he had never pressed a colder into industrial activity. He cited the sending of troops to Akron in connection with steel strike trouble at Canton last year. He also challenged Governor Cox's "assumption of the Roosevelt mantle of progressivism."

### POLES TAKE FORT

#### Win Successes Along Front of 240 Miles

WARSAW.—(By Associated Press.)—Lutsk, an important fortified city forty miles east of Vladimir-Volynsk, has been captured by the Poles, who have won successes along a front of approximately 240 miles, according to an official statement issued here Saturday.

Polish forces continue to advance east of Vladimir-Volynsk, southeast of Brest-Litovsk, and have occupied the towns of Porechov and Chorostov.

The towns of Kamion and Kaspirski, north of Kovell, have been taken by the Russian soviet armies losing 1,000 prisoners.

ACCUSED WOMAN HYSTERICAL  
WARREN, Ohio.—Mrs. George Puhalski, held to the grand jury in connection with the murder of her husband, was reported on the verge of hysterics in the county jail here Saturday. Officers said she has been weeping constantly since her alleged confession to having hired a man to kill her husband.

for the positions," said Cavanaugh. "I closed up and got a job for \$20 a week. My wife had an opportunity to get a job in a tea room where she could make twice that amount. I quit and she went to work."

Cavanaugh said he prepared the meals, cleaned house and took care of the children.

"There is nothing unusual about it," he said. "Many Chicago men, unable to make as much money as their

### COAL CONTROL BY STATE URGED

#### Alabama May Take Over Mines Now Idle

MONTGOMERY, Ala. — (By Associated Press.)—Appointment of a state commission with absolute power to control and regulate the coal industry of Alabama is recommended by the governor.

The report, which was made public Saturday, holds operators and union leaders equally responsible for present conditions in the mining districts of the state.

The public, the investigating committee declares, has been the only sufferer from the strike, which it held limited production and caused prices to soar. Some operators, the report states, have taken advantage of the situation and have been guilty of profiteering.

Three companies of the Alabama national guard called out by Governor Kilby for strike duty in Walker and Jefferson counties where disorder has been reported, were on duty today in the mining districts of these counties.

### FIREMAN'S FINGER SAVES LIVES

#### Stops Gas Leak at Fire at Peril of Own Life

CLEVELAND.—(By United Press.)—Even as the little Hollander saved his town from destruction when he plugged up the hole in the dike with his finger, so did Fireman Mary Booth prevent probable loss of life and destruction of property here when he plugged a hole in a large gas pipe with his finger and followed by a crowd of men, blinded and fainting. Booth covered the leak for 45 minutes.

When the company responded to an alarm of the Friday night, they found a large fire burning furiously and the tenants of the upper apartments in a panic. Occasional explosions of gas shook the structure.

Booth managed to locate the leak and covered it. Fellow firemen found him leaning against the wall, knees sagging, veining on insensibility, but his hand keeping the deadly vapor from escaping.

### MINISTER QUILTS JOB TO BECOME CARPENTER

SPRINGFIELD, Ohio. — Seeking to regain his health, the Rev. W. C. Nash will don overalls and work at the carpenter trade. The Rev. Mr. Nash has been pastor of the Grace M. E. church.

At the end of a year he hopes to be well enough to re-enter the ministry.

RECOUNT ORDERED  
COLUMBUS.—Judge Jones of the supreme court has ordered the Gallia county board of elections to open and recount the votes of Allen Wood and Dan Jones for Republican nomination for county commissioner. At the end of a year he hopes to be well enough to re-enter the ministry.

wives, are working at home, either part or all of the time."

Mrs. L. A. Walters, head of the women's section of the Illinois state employment bureau said, "I have never been hired for house work wherever

### Clues to "Death Wagon" in Wall-st Explosion Unearthed - Dragnet Spread to Trap Anarchists

### Palmer Now Heads Probe - Law Defiance Plot Seen By Washington Officials

NEW YORK.—(By Associated Press.)—Convinced that the explosion which snuffed out the lives of 35 persons and injured nearly 300 others in Wall-st Thursday noon, was deliberately planned by radicals, officials of the department of justice, headed by Attorney General Palmer himself, Saturday spread a dragnet over the country in efforts to trap its originators.

Spurred on by rewards aggregating \$20,500, offered by the New York city administration and an accident insurance company, for the apprehension and conviction of the person or persons responsible for the tragedy, police, ex-service men and private citizens lent their efforts to the federal agents in ferreting out clues.

Department of justice officials were certain that the disaster was not the result of one person's inspiration or eccentricity, but that it was the premeditated and fiendish plot of radicals bent on

defiance of law or organized government. William J. Flynn, head of the bureau of investigations of the department of justice, was chief spokesman for this general opinion. Attorney General Palmer corroborated the statement.

### LITERATURE FOUND

Chief Flynn based his opinion on the finding of radical literature in post office boxes near the scene of the tragedy soon after it occurred. He pointed out a peculiar similarity between the nature of this literature and that found in connection with the anarchists' plots in June, 1919. Similar expressions and similarly misspelled words characterized the literature found Friday and in 1919, he said.

One difference between the two, however, was that the literature found last year was signed "The Anarchist Fighters," while that found Friday was signed "American Anarchist Fighters."

### RUPT WAGON DRIVER

"You can see," Chief Flynn remarked, "they have simply added 'American' to their title now."

Very little could be done to trace the authors of this literature, or to ascertain whether a general radical movement was contemplated, until definite persons can be found who were responsible for Thursday's disaster, Chief Flynn said. Those who distributed the literature, he said, were careful not to send it thru the mails, and were evidently afraid to pass it about the streets, and concluded to shut it into mail boxes and disappear before the explosion occurred.

Primary importance in Saturday's search was attached to finding the driver of the dilapidated rusty red wagon, the fragments of which were found nearest the crater of the terrible detonation. Officials believe apprehension of the authors of the tragedy virtually hinges on this discovery.

Colonel William Mead, chief clerk for J. P. Morgan and Company, whose office suffered a large share of the property damage, declared the driver who shot the hole in the dike, the "death wagon" had been found and that he was reasonably sure of the owner's identity. Peculiar markings on the dead horse's shoes, it was announced, aided in tracing the blacksmith, who thought he could remember who brought the animal to him to be shod.

MANY NAMED FOR LIFE  
The department of justice officials early Saturday had neither confirmed nor denied this report, but Attorney General Palmer said an attempt was being made to trace the animal's owner. He considered his discovery of numerous "Anarchist Fighters" of paramount importance.

There were still about 150 injured being cared for in hospitals Saturday, many of whom were said to be still in a serious condition. Scores of those who will recover will be maimed for life, it was said.

Workers were still busy repairing the damage to the Morgan bank, the United States assay office and other buildings that bore the brunt of the destructive blast.

Department of justice officials attached relatively little importance to the detention of Edwin P. Fischer, at Hamilton, Ontario, who Friday admitted to Canadian authorities having been furnished with the dike to several friends here. However, Attorney General Palmer said he would direct that Fischer be thoroughly examined in the hope that, despite the belief that Fischer was mentally deranged, he might present valuable "leads."

SPECIAL GUARDS ON DUTY  
It also was expected that those who received Fischer's warning missives would be questioned during the day. Special guards still were kept around all government buildings here, the Morgan bank and the homes of numerous men prominent in the financial world. Attorney General Palmer said this same precaution was in vogue throughout the country, to make sure of thwarting any possible radical movement of nation-wide scope.

Defectives and witnesses continued to crowd police headquarters where Captain John Coughlin, acting inspector in charge of the bureau of detectives, was still seeking to establish the identity of the "death wagon."

Apparently, more progress was being made from examinations of the horse than the wagon. The horse—a strawberry roan of less than 15 hands—had been newly shod behind, but had old shoes on his forefeet.

SENTENCED UNDER DRY LAW  
CLEVELAND.—Joseph B. Bouse, proprietor of a prominent former downtown saloon was sentenced to four months in Canton work-house and fined \$500 by Federal Judge D. C. Winstenhaber for violation of the federal prohibition laws. He was indicted by the federal grand jury for having on his premises and selling liquor. Stay of execution was granted Thursday an appeal.

### "AMERICA FIRST," HARDING'S TEXT

#### Talks to Audience of Foreign Born Citizens

MARION.—(By United Press.)—"America first," was the keynote of a speech delivered Saturday by Warren G. Harding, Republican presidential nominee to a front porch delegation composed of American citizens of foreign birth.

Soundings a warning against the possibilities of an organized hypocritical American vote which could deliver America out of her citizenship and transfer her control to a foreign capital, Harding said.

"Let us pray that America shall never become divided into classes and shall never lose the measure of a high national citizenship."

Harding warned against America attempting to meddle in European affairs and asked:

"How can we expect American unity, how can we escape strife, if we in America, attempt to meddle in the affairs of Europe and Asia and Africa; if we assume to settle boundaries and attempt to end the rivalries and jealousies of centuries of old-world strife?"

### 20 MILLION ASKED

#### City of Chicago Sues Two News- papers For Damages

CHICAGO.—(By Associated Press.)—Two suits for ten million dollars each were filed Saturday by the city of Chicago on orders of Mayor William Hale Thompson against the Chicago Tribune and the Chicago Daily News respectively.

The suits, according to Corporation Counsel S. A. Ethelsen, allege that charges made by these papers in the primary campaign that ended Wednesday, have ruined Chicago financially.

The charges alleged false statements to the effect that the city is bankrupt and its credit exhausted. They declared that these statements injured bonds issued by the city, caused it to pay higher prices for supplies and materials, and injured the morale of city employes.

## THE TRAMPS—WHERE ARE THEY?

ONLY a few years ago—until the time the world war began—America was overrun with tramps—the genius hobo, the tie walker, “sidedoor sleeper” occupant, whose only care was “bumming a handout” or finding a suitable place for a “flop.”

Weary Willie toiled not, neither did he spin. He made himself believe that he was always looking for work, but he very likely hoped he wouldn't find it. At any rate, he is gone. The “work or fight” order during the war proved his undoing. It was no longer a matter of personal choice as to whether he would or would not work. Uncle Sam ordered the great army of ne'er-do-wells to get busy and they hustled to do it. Having gotten a taste of work—real work that brought compensations other than monetary reward, they seem to like it and are staying with it.

War, and the need of speeding up production, made it imperative that all idle hands find something to do. Before the “work or fight” order was promulgated the hobo of the life of the railroad tramping was the tramp, who was ever on the go, from one center of population to another and who did not believe in the little formality of paying carfare on a passenger train, preferring to “bum” a ride on a freight train or “hitting up a blind baggage.”

Willie was also a constant annoyance to the desk sergeant at the police station, coming in at all hours of the night and seeking permission to sleep on the floor, with only a bunch of newspapers for a pillow. He doesn't bother now as was his wont in the past. He has departed from the scene and has joined the great army of American workmen who find pleasure in toil. There never was any really good excuse for the American tramp. He should never again be permitted to return. There were reasons for the large number of tramps. Not all of them were tramps by choice, but many as a result of necessity. In these latter days those who choose the life of the wanderer do so from choice. There is no necessity for it. There is work aplenty, at good wages.

## GROWTH OF THE SOUTH

SOUTHERN states have at last swung into the line of modern industrial development, and the figures announced by the census office draw back the curtains so that the results may be seen. Birmingham, Alabama, now has a population of 178,270, an increase of 45,583 in ten years, based entirely on steel. Similar results were evidenced as figures were returned concerning textile centers.

It is naturally to be expected that the greatest cotton producing district in the world should become the greatest cotton manufacturing district in the world and that seems to be the destiny of the southern states. It saves transportation, which means saving of coal, man power and the use of railroad equipment to manufacture anything where the raw material is produced and the possibilities of power development are very great thruout the south.

The south has been regarded as the center of a quiet patriarchy, in which a docile race

did the work and the patriarchs did the politics. Nor can anybody deny that in the leisure of such supervisory existence the south has produced some of our greatest and wisest statesmen and patriots, with George Washington at the head and at the opposite pole of thought and endeavor Thomas Jefferson, a great Democrat.

All that is changed and the nation has not been aware of it. Modern hustle has reached the southern states. Industry has intruded upon its once quiet precincts, the cities are growing, railroads have gridironed the country, wealth is accumulating, its seaports are expanding to accommodate a rapidly growing commerce, crops are being diversified, agriculture has improved, production has increased and the hum of the loom and the roar of the steam hammer are heard in the land.

Under the circumstances it is right and proper that the south, the land of promise, be commended to our rapidly increasing army of tourists as the mecca for more frequent journeys.

## AN OHIOAN TO THE RESCUE

OHIO has long prided herself on being the state that grows Presidents, but a rival glory awaits her as the state wherein was discovered the art of putting American holes in Swiss cheese, or Swiss holes in American cheese.

Holes comprised the one thing lacking in an otherwise perfect imitation of an imported article. The American cheese had exactly the same color, the same odor, the same taste and the same texture in all but the places where the cheese ought not to be, yet because of those missing holes there were people who complained that it was not the same thing.

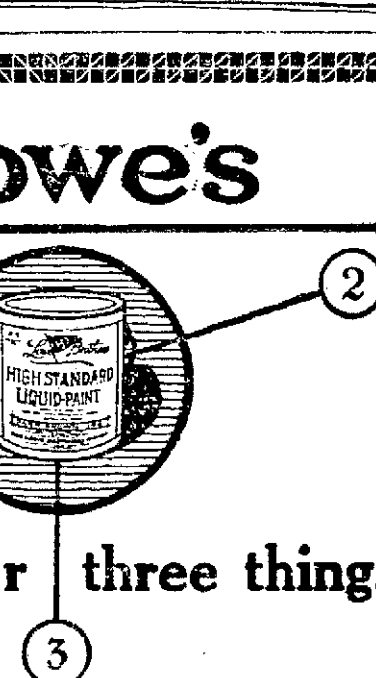

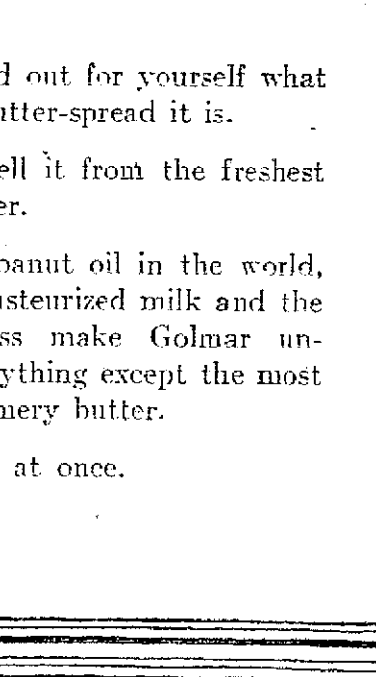

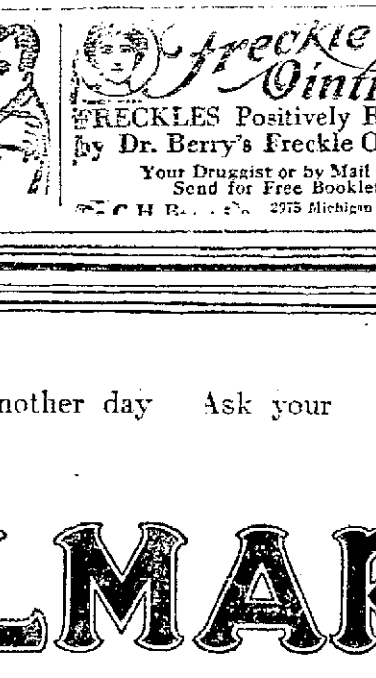

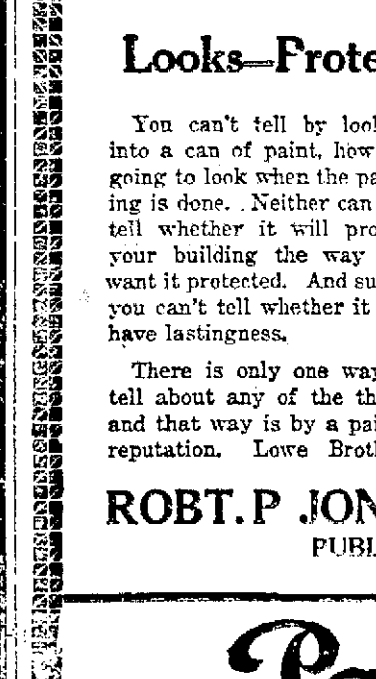

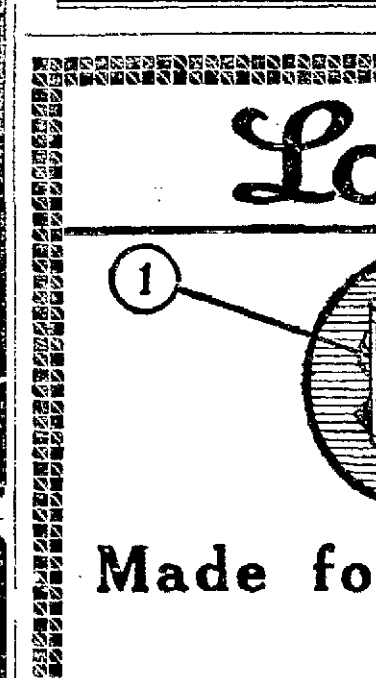

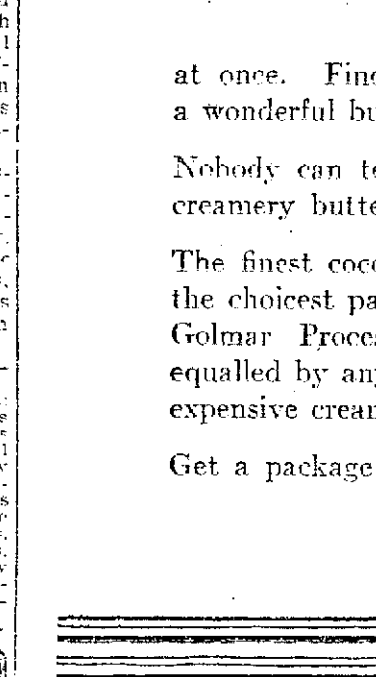

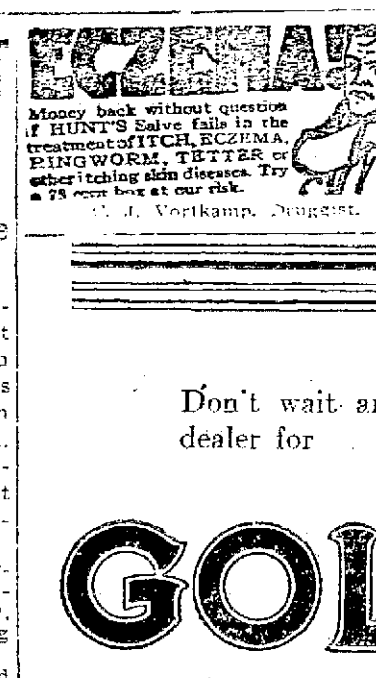

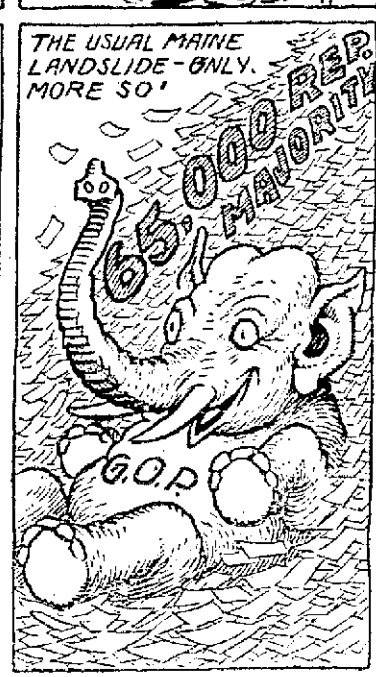

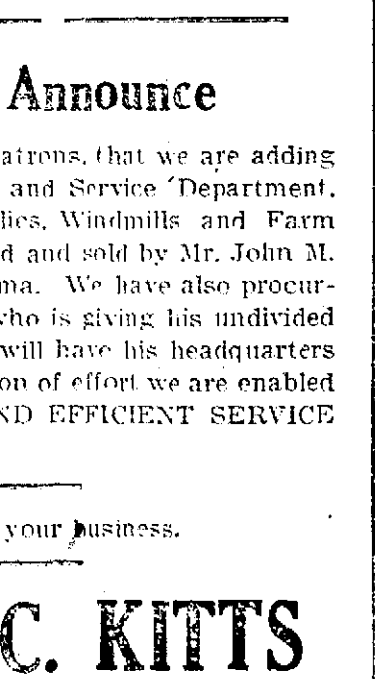

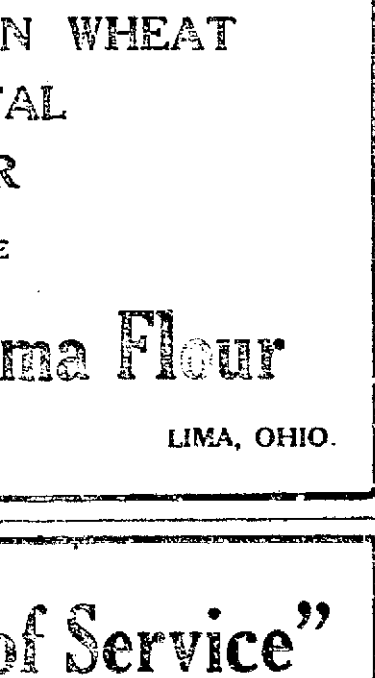

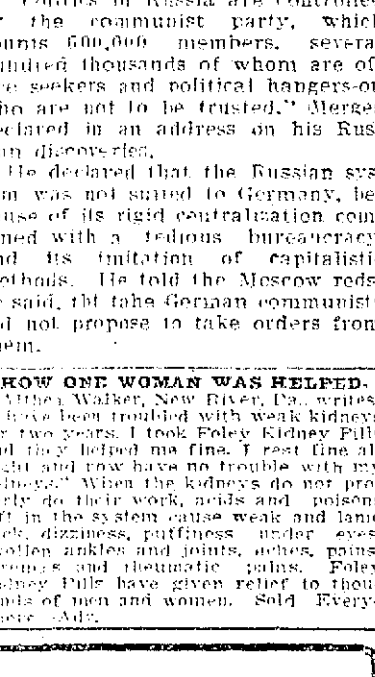

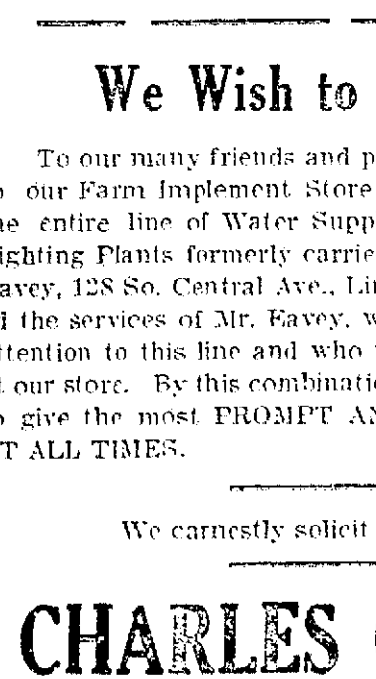

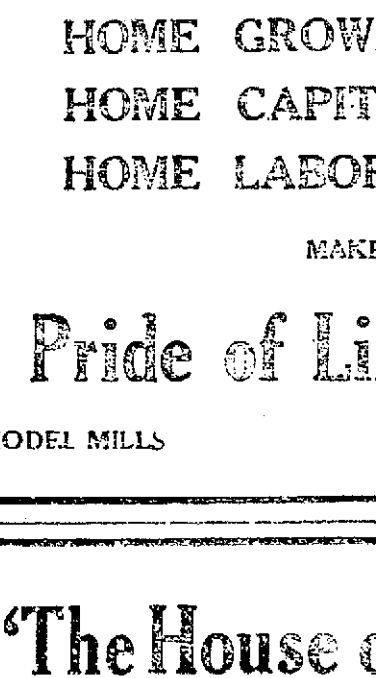

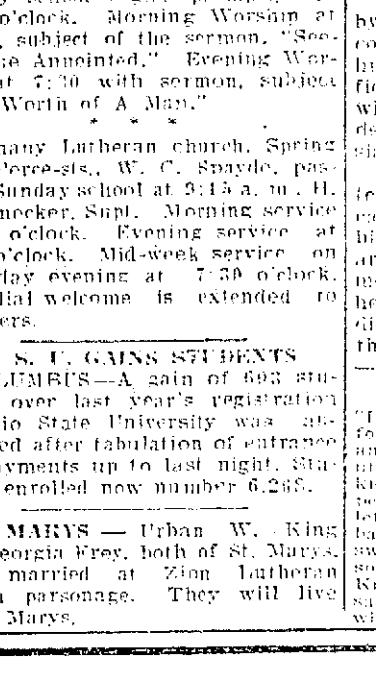

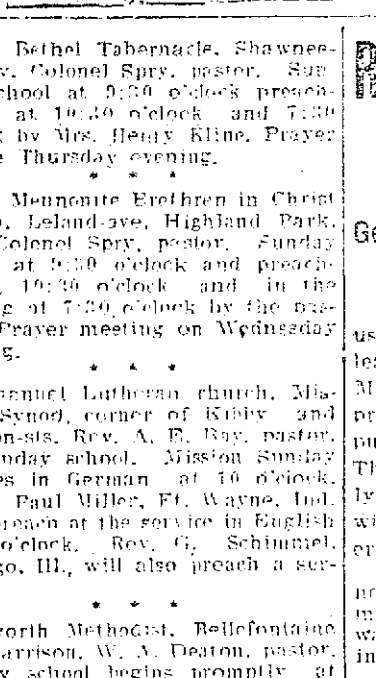

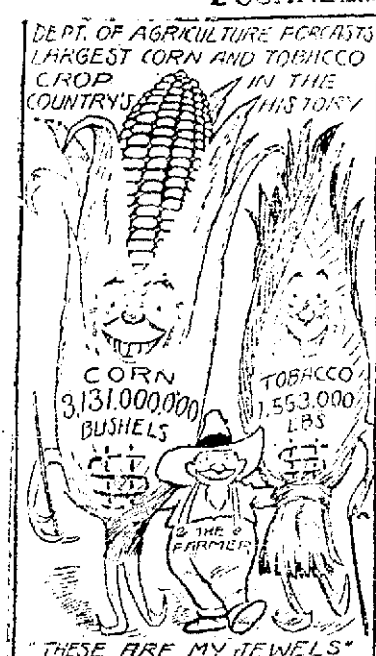

All in vain the dealers pointed to the fact that the American article was giving the consumer more cheese for his money, but the consumer was not satisfied—he wanted those holes and wouldn't be happy until he got them. Now, thanks to an Ohio genius, the consumer can have as many pockets in his cheese as he has pieces of money in his pockets to pay for them.

If he insists upon buying good American air—the one and only element he could have for nothing—he can get all he wants and it will be his own fault if the profiteer now gives him more air holes than cheese.

It's a curious old world—people clamoring to pay for what they could have for nothing! A sane man may prefer to have his holes on the outside of the cheese, but if there are those who want them inside, well, good luck to the man from the good old Buckeye state. He has filled a “long felt want” or a “void,” just as you may choose to view it. Ohio has not only commanded a prominent position in the front row among cheese makers, but it remained for an Ohio man to supply the only missing feature in connection with the business necessary to give this state the first seat in the first row of the cheese procession.

It's America first, then Ohio!

MISS LIMA: “This city appears to have a perfectly good flag pole on the public square and a new flag, but nobody to hoist the flag daily.”

## REAL COMMUNIST SCORES SOVIET

German Red Cays Bolsheviks Are Capitalistic

BRUNSWICK, Germany. —August—Merges, a German communist leader who has just returned from Moscow, says that “bolshevism as practiced in Russia is not Simon pure unadulterated communism. The cost of living there is excessively high; paper money is wiped out with paper money and people generally have the blues.”

Merges, a little hunchbacked journeyman tailor, who staged the communist revolt in Brunswick in 1919, warns his comrades against settling in Russia.

“Politics in Russia are controlled by the communist party, which counts 600,000 members, several hundred thousands of whom are office seekers and political hangers-on who are not to be trusted,” Merges declared in an address on his Russian discoveries.

He declared that the Russian system was not suited to Germany, because of its rigid centralization combined with a tedious bureaucracy, and its imitation of capitalist methods. He told the Moscow reds, he said, that the German communists did not propose to take orders from them.

ROW ONE WOMAN WAS HELPED. —Miss Walker, New River, Pa., writes: “I have been troubled with weak kidneys for two years. I took Foley Kidney Pills and they helped me fine. I rest fine all night and now have no trouble with my kidneys.” When the kidneys do not properly do their work, acids and poisons left in the system cause weak and lame back, dizziness, puffiness, under eyes, swollen ankles and joints, aches, pains, nervous and climatic troubles. Foley Kidney Pills have given relief to thousands of men and women. Sold Everywhere.

ST. MARYS — Urban W. King and Georgia Free, both of St. Marys, were married at Zion Lutheran church parsonage. They will live at St. Marys.

O. S. U. GAINS STUDENTS. —COLUMBUS—A gain of 603 students over last year's registration at Ohio State University was announced after tabulation of entrance payments up to last night. Students enrolled now number 6,245.

ST. MARYS — Urban W. King and Georgia Free, both of St. Marys, were married at Zion Lutheran church parsonage. They will live at St. Marys.

Olivet Presbyterian, Elizabeth and Kibby. Sunday school 9:15. E. L. Malone, Supt. No preaching services for the day. Christian Endeavor 6:30.

## WHAT THE STARS PREDICT TODAY

This day is particularly unfortunate. It is not a favorable sign for making important decisions since the judgement is likely to be warped. Slander and libel will be rife under this rule. Diplomatic complications are predicted at this time by the stars. Airplane accidents will occur. Persons whose birthday this is should avoid speculation. Children born today will be talented but erratic. (Copyright 1920.)

## “The House of Service”

We Wish to Announce

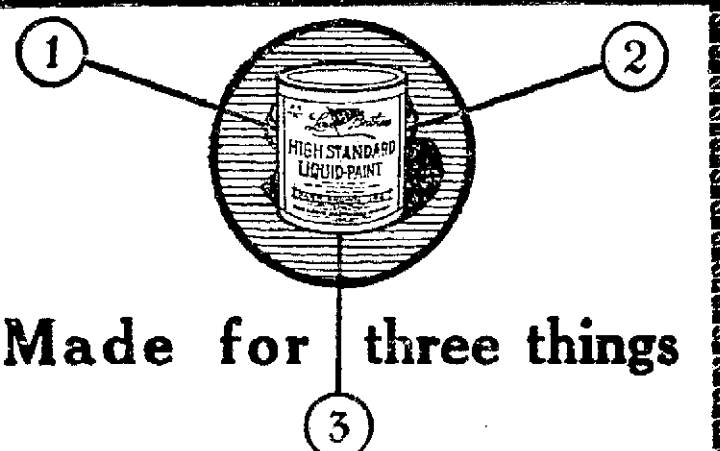

To our many friends and patrons, that we are adding to our Farm Implement Store and Service Department, the entire line of Water Supplies, Windmills and Farm Lighting Plants formerly carried and sold by Mr. John M. Eavey, 128 So. Central Ave., Lima. We have also procured the services of Mr. Eavey, who is giving his undivided attention to this line and who will have his headquarters at our store. By this combination of effort we are enabled to give the most PROMPT AND EFFICIENT SERVICE AT ALL TIMES.

We earnestly solicit your business.

# CHARLES C. KITTS

305-7 E. Market St. Phone, Rice 2301

## Lowe's

Made for three things

Looks—Protection—Lastingness

You can't tell by looking into a can of paint, how it's going to look when the painting is done. Neither can you tell whether it will protect your building the way you want it protected. And surely you can't tell whether it will have lastingness. There is only one way to tell about any of the three: and that way is by a paint's reputation. Lowe Brothers have a reputation for making paints of the highest quality. They have enjoyed this reputation during the past half century. We recommend this paint because it lasts longer and costs less in the long run. Use it once, you'll use it all ways. Come in and ask for color card and booklet.

## WILL PRICES BE LOWER?

The wave of cut prices which has swept the country should be recognized for what it is, an economic resort to remedy from three causes. First, to raise money quickly, need for which came as a result of a backward season; second, as an answer to public demand for lower prices; third, simply because dealers holding stocks became a little panicky.

The price-cutting wave has been greatly confined to the retail trade. This could easily be observed. Manufacturing costs have not increased, but on the contrary have remained the same, and in many instances have advanced materially. When the cost to produce has not been lowered, only those stocks already on the shelves of the dealer can be cut in price, and only then at a sacrifice. With such stocks, a hasty replacement must be placed on the basis of cost to produce and distribute.

The public has been the lucky recipient in price reductions, which already they have been able to understand are not basic or permanent. The great general public has been

well educated to look for price reductions and clearance sales at the big end of seasons. And also to expect to pay market value in season for reasonable merchandise.

Prices will continue at the present level, and in some cases advance somewhat. The peak, while it is in sight, has not been reached, nor are we yet going down the other side. On the contrary, there is still an upward trend, due to a continued shortage of labor, restricted production, and stoppage of transportation. However, it should be recognized that we have gone through what might be termed the worst of our difficulties. There is a certain measure of increased efficiency on the part of labor, the shortage of labor is not so acute as during the past two seasons, our transportation difficulties are being rapidly overcome. All this works steadily toward increased production, and with production balancing demand we can expect prices to lower in an orderly manner.

This article has been furnished thru the courtesy of L. Lotzoff, custom tailor, cleaner, dyer and presser at 319 West North-st.

## BANANAS HIGH IN FOOD VALUES

V. Cardosi & Co. make a specialty of this fruit.

In the West Indies, in the Islands of the Pacific, along the Congo, and throughout Central Africa many natives eat bananas as their staple article of food and maintain good physical development. The fact that a diet consisting solely of this fruit will sustain life for long periods is owing to the relatively high percentage of nitrogen which it contains compared with sugar, arrowroot, and small carbohydrates. This percentage amounts to nearly five parts per hundred on the entire fruit or one-fifth of the total solids.

The banana has of late years assumed a very important position among other fruits sold in this country. Improvements in cultivation and means of transportation, and the length of time thru which the fruit will keep without spoiling, are accountable for this, and upwards of one hundred thousand bunches of bananas are sold per month for distribution in New York City and vicinity alone. It ranks equally with the orange in extent of consumption, and during the winter months it is often the only fresh fruit which is universally obtainable in remote country districts, while its cheapness places it within the reach of almost every one.

In British Guiana the banana is employed especially as a nourishing food for young children and invalids.

Surgeon Parke ("My Personal Experiences in Equatorial Africa," p. 416) in an instructive and interesting account of his experience with the sick of the Emin Pasha Expedition refers to Mr. Stanley, who was in the midst of a severe attack of acute gastritis, as follows: "He ate porridge made with banana flour and milk. It is very light and digestible, and is of better flavor than arrowroot. It is also very nutritious. We whites have very good reason to know this food now, as we have mostly lived on banana flour for the past two years."

During most of this period, it should be observed, the members of the expedition were taking very long marches, and were suffering from frequent attacks of malarial fever, which were a severe test of the nutritive value of any dietary.

The banana flour when prepared from the best quality of bananas is made into a thin gruel or porridge by the addition of either water or milk, and eaten with cream or constitutes a delicious and highly nutritious article of diet, suitable in cases of gastric irritability and acute gastritis, etc. It is particularly serviceable for children between five and ten years. For those craving an acid flavor, lemon juice with powdered sugar upon banana porridge is found to be very acceptable. The records of some fifty patients in the New York and Presbyterian hospitals, to whom I gave gruel or porridge made with banana flour, show that it is exceptionally well borne by irritable stomachs, almost never causing any tendency to produce acidity, flatulence, nor did it cause diarrhoea or any apparent laxative effect. It proved very useful in several cases of simple gastritis and acute gastritis complicating chronic indigestion, and in the early convalescent stage of typhoid fever. It was used with advantage even during the fever itself, whenever a change from an excessive milk diet seemed indicated either by the patient's dislike for milk or by its causing dyspepsia—"Practical Dietetics," by W. Gilman Thompson, M. D.

## BUSINESS COLLEGE OPENS FALL TERM

More Calls Are Made For Trained  
Office People Than Can Be  
Supplied.

The fall term of the Lima Business College has started and a great number of pupils already have enrolled but the enrollment so far will not be sufficient to take care of the present needs in Lima for trained stenographers, bookkeepers, accountants, etc. All kinds of good positions are to be found for experienced and trained people in these kind of positions and there is a noticeable lack of applicants for any which might be advertised, or declared open for occupancy.

The Business College is doing all in its power to fill these positions as fast as possible. No person could be making a mistake to enroll at the beginning of this term and let themselves slip into a respectable position.

Then only of desirable position will be filled this year thru the Business College. Why shouldn't you fill one of the seats at the very end of an experienced expert? It can be done and without a great deal of effort. All you must do is to enroll in the college, work on your studies, and you are bound to come out ready for a position such as will be waiting for you.

Calder Monument Co.  
Improves Their Service

The Calder Monument Works has added to their already complete plant a new show room which will enable them to more effectively display their work to prospective customers. The new show room is located on Woodlawn Ave. near Woodlawn Cemetery.

The show rooms are kept open every Sunday afternoon, for the benefit of those who cannot find time to view them during the week.

## KERN BROS. HAVE MODERN PHARMACY

South Lima is exceedingly lucky in having a pharmacy in its midst with a reputation such as is enjoyed by the Kern Bros. Pharmacy. This thriving drug emporium is noted for the carelessness with which they compound prescriptions. The store also carries a complete line of patent medicines, and the many sundry articles which go to complete an up-to-date drug store. The store, although having been established but a short time is thriving and is accepted as one of the leading stores in this district. This store is located at 712 South Main street instead of at Main and Kibby as reported in this paper recently.

## MAN BURIED ALIVE BUT WILL RECOVER

SALIDA, Colo.—Physicians here are marveling at the recuperative powers of George Bassham, who, while working in a ditch near here, was buried in a cave-in under thirty feet of earth. He was imprisoned under the house of rock and earth for more than twenty minutes before being rescued. Bassham was unconscious for forty-five hours, but physicians say he will recover.

## UNEMPLOYED FLOCKING

TOLEDO—Hundreds of men from Detroit, Akron and other cities are flowing into Toledo in search of employment according to a report made by James M. Daly, superintendent of the state city fire employment bureau.

The influx, he said, was due to the fact that thousands of men were made idle by the closing or curtailment of work in plants in many cities. Despite the demand for jobs, wages have so far been maintained at an even level. Jobs, however, are scarce and hard to obtain, he said. Common labor is still being paid from \$1 to \$3 cents an hour, Daly said.
